PREFACE

The U.S. Joint Chiefs of Staff's conceptual template for future warfighting, *Joint Vision 2010*, states "Although our Armed Forces will maintain decisive unilateral strength, we expect to work in concert with allied and coalition forces in nearly all of our future operations, and increasingly, our procedures, programs, and planning must recognize this reality."

To assist student researchers in a better understanding of Coalition Warfare, a special theme of the U.S. Army War College's Academic Year 2000 curriculum, this bibliography provides references to books, documents, and periodical articles available in our library. Most of the items listed have publication dates of 1990 to the present, however some older titles which appear to be of permanent importance are also listed.

For your convenience, we have added our call numbers at the end of each entry. Please keep in mind that call numbers may vary from library to library. This bibliography is also available on the Internet through our Library's home page (<http://carlisle-www.army.mil/library/>).

For additional information, please contact the Research and Information Services Branch, U.S. Army War College Library by sending an e-mail message to libraryr@awc.carlisle.army.mil, or by phoning DSN 242-4280 or Commercial (717) 245-4280.
